

# TECHNICAL INFORMATION

## FORMAT AND BLEEDS

The trimmed magazine size is 230 x 297 mm; please refer to the table for other dimensions.

Each page should have a minimum 3 mm bleeds on all sides.

For the second and third inside cover pages, please use the dimensions 224 x 297 mm due to a 6 mm binding margin on the spine side.

For double-page spread advertisements, extend the graphics on both pages by approximately 3 mm each. (This does not apply to the first spread on the inside front cover and the first editorial page, where both pages should have a width of 224 mm).

## FILE FORMAT

Image resolution: 300 dpi. EPS-file with embedded images and typeface (not True Type) Save preferably as a ProScript with Preview. PDF composite file with embedded images and typefaces. Please use Weekends pdf-profiles for Distiller and InDesign for making press optimized pdf's version 1.3, with automatic jpeg compression high. 4-colour and 2-colour must always be saved in CMYK. Cyan, magenta, yellow and black. B/W adverts must be saved in grey scale or CMYK (grater). Total Ink Limit must be 320% please download profiles from ECI – ISO\_coated\_v2.icc ([www.eci.org](http://www.eci.org))
